

Table 2. Explanation of descriptive terms and abbreviations used to code samples with respect to selected geologic and hydrologic parameters

Code Type	Code Term	Notes
District	Czatkowice	Background; no large ore bodies known to exist
	Olkusz	includes Boleslaw, Olkusz and Pomorzany mines
	Trzebinia	Chrzanow area; includes Jaworzno, Janina, and Trzebionka mines
	Crakow	includes precipitation and cave seep samples
Aquifer	Carboniferous	
	Devonian	
	Triassic	
	Jurassic	
	Quaternary	
	composite	obtains water from two or more aquifer sources
	surface water	source aquifer(s) unknown
Lithology	anthropogenic	sample obtained from waste pond or other man-made environment
	conglomerate	
	dolomite	
	limestone	
	ls/dol	interbedded limestone and dolomite rock units
	sand	unconsolidated glacial deposits
	sandstone	
	surface	surface-water sample
